Subject: BASF Foam Master Contractors
To: Alpha Insulation <gary@alphainsulation.co.uk>

To Whom It May Concern,

ECON Polyurethanes act as the sole distributor of BASF manufactured polyurethane foam insulation systems and polyurea coatings through the UK and Ireland. Products include Elastospray closed cell , Evertite open cell and Walltite cavity wall insulation. We are charged with maintaining a database of accredited and trained BASF Foam Master contractors.

I can confirm that Gary Johnston and Peter Averell have completed their BASF Foam Master training and are listed on the appropriate database.

Regards,
Peter
