Product data sheet

Dockskin® 200

Updated on: 10.03.2025

Distributor: SIGA

Application and installation instruction: See manual

Composition: solvent-free polyurethane mixture

Packaging unit: 6 x 1 kg bottles / box

Characteristics:

			Einheiten	Werte
Content	bottle		kg	**1.0**
Sufficient for	bottle	100mm Application width 200mm Application width 300mm Application width	m	**~100** **~50** **~30**
Temperature resistance			°C	**-40 °C bis +100 °C**
Processing temperature			°C	**-10 °C bis +40 °C C**
Drying time	20°C/50% rH	Curing by humidity in air and surface. Drying times can vary depending on the surface and be prolonged at low temperatures.	min	**35 ±8**
Storage properties	Unopened 12 months in respect to a storage temperature of 20 °C since manufacturing date (look printing on the bottle). Protect against humidity and frost.			
Subject to labelling	Subject to labelling according to EU-regulations, look safety data sheet
